Management Comment

Commenting on the results and performance for Q3 & 9MFY21, Major General O. P. Gulia - President for SVP Global **Ventures Limited said:**

"We are pleased to report positive results for this quarter and are optimistic of growth for the coming quarter and next financial year.

Strong demand revival in yarn market, better pricing and change in the product mix led to increase in revenue to the pre-covid levels.

Compact cotton yarn contributed 84% & traditional yarn contributed 16% for 9MFY21 as compared to 75% & 25% for FY20, respectively.

Our consolidated EBIDTA stood for Q3FY21 at Rs. 76 crs with an EBIDTA margin of 20.6%. Our cost rationalization initiatives during the first half of the year coupled with better product mix and operational efficiencies led to a margin expansion of 780 bps as compared to same period last year.

Consolidated PAT for Q3FY21 stood at Rs. 33.3 crs with a PAT margin of 9%

With increase in volumes and strong order book in hand we are envisaging a positive momentum in the business. Shift in product mix with export opportunities in the hindsight from our Oman facility, should give a boost to our operating margins going forward."
